

REMARKS/ARGUMENTS

Applicant submits this communication further to the Amendment mailed to the Patent Office on May 18, 2006.

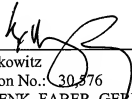

In claim 14, it was deemed appropriate to further amend the claim in order to better direct it to the subject matter which the applicant regards as the invention. In claim 32, a minor correction has been entered to assure antecedent basis.

It is also noted that this Amendment is being filed electronically and, therefore, might reach the Patent Examiner prior to the previously mailed, May 18, 2006 Amendment. Entry of this Supplemental Amendment subsequent to the previously mailed Amendment is earnestly solicited.

Reconsideration of the application in light of the recently filed Communications is earnestly solicited.
